Article | Comments

**North County Health Services** has been awarded \$983,333 in the New Access Point Grant from the Health Resources and Services Administration and the Bureau of Primary Health Care.

The purpose of the grant is to provide primary care services to underserved and vulnerable populations.

This award was granted to only 164 community health centers across the country, with NCHS receiving the 10th-largest award. NCHS plans to use the grant to expand services into Riverside County by the end of the year.
