and the Vista Community Clinic.

Rest Haven has undergone a competitive request for the proposal process each year since 2008, averaging \$200,000 in annual giving. Over the last eight years, the foundation has awarded a total of \$1,616,711 in the form of special one-time grants to 39 different nonprofit agencies who share its children's health mission.

Rest Haven's mission is to provide funds for health-related services for children in San Diego and Imperial Counties when no other funds are available. Each year, the board of directors invites local agencies and institutions to submit proposals requesting funding for identified children's health needs in their communities. The one-time grants must be used to increase the organization's capacity to provide healthcare to meet the physical, medical and/or emotional needs of children ages zero through 17 years.

Rest Haven has been supporting the health of underserved children since its founding in San Diego in 1909. Rest Haven's support later expanded to include children and agencies in Imperial County.
