NCHS Ramona Announces New Health Center

North County Health Services to Open New Clinic in Ramona

Ramona, Ca. May 11, 2018- For more than 40 years, North County Health Services (NCHS) has provided quality, affordable care for the residents of Ramona and the surrounding communities. What began as a mobile clinic quickly expanded to a church basement and eventually a clinic building to accommodate the growing demand for access to health care. Today, NCHS operates 13 locations across North San Diego and Riverside counties and saw over 60,000 patients in 2017.

Due to the increasing number of patients seeking care and demand for increased access, NCHS Ramona will be opening the doors to their new health center, the former Sear's building, at 220 Rotanzi Street in Ramona in late 2018. With a larger, upgraded, state-of-the-art facility, patients can expect dental and medical care, shorter wait times for appointments, as well as programs in behavioral health, among other improvements. The new location of the clinic is more centralized and will undoubtedly allow for increased access to care.

NCHS is proud to be serve as a staple in the Ramona community, and looks forward to continuing to care for patients for many more years to come.
